Project Brief: SelbstfahrerVermietversicherung.online — CVB Redesign & Insurance Price Calculator

At a Glance

We rebuild the website **SelbstfahrerVermietversicherung.online** in the design of the Caravan-Vermieter-Bund (CVB) and add an **insurance price calculator**. A visitor selects their vehicle type, enters the purchase price and year of manufacture, and instantly sees the matching CVB insurance plans with yearly price, deductible, and benefits. The cheapest available plan is marked as recommended. The visitor can then send an insurance request by email. An admin panel lets the site owner update all prices, texts, and content without a developer.

Item	Details
Website	SelbstfahrerVermietversicherung.online (existing site, full redesign)
Design reference	caravan-vermieter-bund.de (CVB design: colors, fonts, logo, look and feel)
Calculator reference	horbach24.de (similar calculator concept, for inspiration only)
Language	German only (all UI text, emails, and admin in German)
Insurance plans	CVB-Plus, CVB-Premium, CVB-Flex
Vehicle types	Wohnmobil (motorhome) and Wohnwagen (caravan)
Request email goes to	Versicherungsanfrage@caravan-vermieter-bund.de
Phases	1. Homepage redesign · 2. Price calculator · 3. Admin panel

All prices and rules in this brief come from the client's two source files: the price table **Übersicht_Versicherungskosten_2027.xlsx** and the insurer offer **Praemienangebot_2027 (Funk Gruppe PDF)**. Both are attached with this brief. All relevant data from them is included in this document; use the Excel file to verify calculated prices during testing.

Phases and Deadlines

The project runs in three phases. The hard deadline: **the website with the working calculator must be live before 01.12.2026**, because the new 2027 insurance prices apply from 01.01.2027 and customers compare plans in December.

Phase	What we build	Deadline
1. Homepage	Full redesign of the site in CVB design	Day 1–3 (first preview to client by day 4)

Phase	What we build	Deadline
2. Calculator	Price calculator, results, request form — fully working	Finalized in 7–8 days, ready by day 8–10 at the latest
3. Admin panel	Content and price management	By 03.12.2026

Important for planning:

1. The calculator must be **finished within 7–8 days** so we can show it to the client for review. After that, only testing and small fixes happen. Nothing new is added.
2. The last week of November is reserved **only for testing**: every price checked against the Excel table, all devices, all edge cases. The site must be perfectly ready for real users before 01.12.2026.
3. The admin panel (Phase 3) can be finished after the launch, but no later than 03.12.2026. The launch does not wait for it: all 2027 prices are built into the calculator from the start.
4. Homepage and calculator work can run in parallel. The calculator logic does not depend on the design.

Phase 1: Website Redesign in CVB Design

Rebuild SelbstfahrerVermietversicherung.online so it looks and feels like caravan-vermieter-bund.de. Visitors should immediately see that both sites belong together.

Design rules

1. Take colors, fonts, button styles, header and footer style from the CVB design (caravan-vermieter-bund.de and the CVB-Office project use the same design language).
2. Use the CVB logo and branding provided by the client.
3. Clean, trustworthy look — this is an insurance site, so clarity beats decoration.

Page structure (one main page plus legal pages)

1. **Hero section:** short headline about insurance for camper rental, with a button that scrolls to the calculator.
2. **Intro:** what the service is — insurance solutions for people who rent out motorhomes and caravans (Selbstfahrervermietversicherung).
3. **Calculator section:** the price calculator (Phase 2). This is the heart of the page.
4. **Plan overview:** the three plans CVB-Plus, CVB-Premium, CVB-Flex with their key benefits (content in the "Results Display" section below).
5. **Trust/benefits section:** why insure through CVB — advice for renters, one contact partner, plans built for rental vehicles.
6. **Contact section:** contact details and a simple contact form.
7. **Footer:** links to Impressum and Datenschutz (take the existing legal texts from the current website; do not write new legal texts).

Content: Reuse the text content of the existing SelbstfahrerVermietversicherung.online where it fits. Improve wording where needed, but do not invent new offers or claims. Everything in German.

Technical: Fully responsive (smartphone, tablet, desktop), fast loading, basic SEO (titles, meta descriptions, clean headings structure, alt texts).

Phase 2: The Price Calculator — Inputs and Flow

The visitor answers four questions. After the last input, the calculator shows all matching plans with prices. No account, no waiting, no page reload.

The four inputs

#	Input	Type	Rules
1	Fahrzeugart (vehicle type)	Two buttons: Wohnmobil / Wohnwagen	Required. Decides which price set is used.
2	Kaufpreis neu, brutto (new purchase price, gross, without discounts)	Number input field in €	Required. Plain input field — the client explicitly does NOT want a slider. Validate: numbers only.
3	Baujahr (year of manufacture)	Dropdown or number input	Required. Used to calculate vehicle age. Vehicle age = current year minus Baujahr.
4	Veruntreuungsschutz (embezzlement cover)	Yes / No choice	Required. Only changes the CVB-Flex price. CVB-Plus and CVB-Premium already include this cover, so their prices stay the same either way.

Rounding rule: If the entered price is between two 1,000 € steps (e.g. 47,500 €), round UP to the next full 1,000 € (48,000 €) before calculating.

Flow after input: Show the three plans side by side (details in "Results Display" below). The cheapest available plan is marked **„Empfehlung“ (recommended)**. If a plan is not available for this vehicle (too expensive, too old, outside the table), show it greyed out with a short note, or show „Preis auf Anfrage“ (price on request) where that rule applies — the exact rules per plan are in the next section.

Important UX details

1. The calculator must react instantly when inputs change (recalculate live).
2. Show the fixed deductible (Selbstbeteiligung) with every plan price.
3. All prices are yearly premiums including insurance tax („Jahresbeitrag inkl. Versicherungssteuer“) — state this clearly under the results.
4. Works perfectly on mobile — many visitors will come from a phone.

Calculation Logic per Plan

Let **V** = vehicle value after rounding up to the next 1,000 €. Vehicle age = current year − Baujahr. All amounts in €, yearly, including insurance tax.

CVB-Plus (deductible 1,500 €)

Vehicle	Price
Wohnmobil, V = 50,000–71,000	3,082.99
Wohnmobil, V = 72,000–90,000	3,381.44
Wohnwagen, V = 6,000–35,000	1,196.66 (always)
Outside these ranges	„Preis auf Anfrage“

Veruntreuung choice does not change the price (already included).

CVB-Premium (deductible 1,500 €)

Vehicle	Price
Wohnmobil, V = 50,000–90,000	3,250.00 (always)
Wohnwagen, V = 6,000–35,000	1,330.00 (always)
Outside these ranges	„Preis auf Anfrage“

Veruntreuung choice does not change the price (already included). Premium is only for vehicles up to 150,000 € gross.

CVB-Flex (deductible 1,000 €)

Flex is calculated with a formula, not a lookup table. Base components from the insurer offer (Funk Gruppe):

Component	Wohnmobil	Wohnwagen
Haftpflicht (liability), fixed	847.00	313.00
Kasko rate (% of V)	2.9 %	3.3 %
Minimum V used for Kasko	50,000	20,000
Schutzbrief (breakdown cover), fixed	85.00	not available
Maximum insured value	250,000	250,000

Formula (without Veruntreuung):

$$Flex = Haftpflicht + KaskoRate \cdot \max(V, MinimumV) + Schutzbrief$$

Examples to verify: Wohnmobil V = 50,000 → 847 + 1,450 + 85 = **2,382.00**. Wohnmobil V = 90,000 → 847 + 2,610 + 85 = **3,542.00**. Wohnwagen V = 15,000 → 313 + 660 = **973.00** (minimum 20,000 applies). Wohnwagen V = 35,000 → 313 + 1,155 = **1,468.00**. These match the client's Excel exactly.

With Veruntreuung, add a fixed surcharge to the formula result:

Vehicle	V range	Surcharge	Above range
Wohnmobil	up to 60,000	+ 357.00	—
Wohnmobil	61,000–75,000	+ 446.25	V > 75,000 → Flex not available („k. A.“)
Wohnwagen	up to 15,000	+ 119.00	—
Wohnwagen	16,000–25,000	+ 178.50	V > 25,000 → „Preis auf Anfrage“

Age rule for Flex: Kasko is only possible for vehicles up to 20 years old. From age 21, only liability insurance is offered: Wohnmobil **1,016.40** (847 + 20 % surcharge for liability-only contracts), Wohnwagen **375.60** (313 + 20 %). No Schutzbrief, no Kasko, no Veruntreuung in this case. Label it clearly: „Ab 21 Jahren Fahrzeugalter: nur Haftpflichtversicherung möglich“.

Availability and recommendation

1. Calculate all three plans for the given inputs.
2. A plan that returns „Preis auf Anfrage“ or „k. A.“ is shown without a price, with a request button instead.
3. Among the plans with a price, mark the **cheapest** one as „Empfehlung“. Never hard-code which plan wins — always compare the calculated numbers. (For Wohnwagen, Plus is always cheaper than Premium; for Wohnmobil it changes with the value. The comparison handles all cases automatically.)
4. If NO plan has a price (all outside ranges), show one friendly message: individual offer needed, please send a request — with the request form.

Source of truth: The attached Excel file Übersicht_Versicherungskosten_2027.xlsx contains the full price tables for Wohnmobil (50,000–90,000) and Wohnwagen (6,000–35,000), with and without Veruntreuung. The formulas above reproduce every value in it, including the surcharge step at Wohnmobil 61,000. During testing, compare the calculator output against every row of this file. Any difference is a bug.

Verification Checkpoints (from the Excel)

Use these rows to spot-check the implementation quickly. The full tables are in the attached Excel.

Wohnmobil (yearly price in €)

V	CVB-Plus	CVB-Premium	Flex ohne Veruntreuung	Flex mit Veruntreuung
50,000	3,082.99	3,250.00	2,382.00	2,739.00
60,000	3,082.99	3,250.00	2,672.00	3,029.00
61,000	3,082.99	3,250.00	2,701.00	3,147.25
71,000	3,082.99	3,250.00	2,991.00	3,437.25
72,000	3,381.44	3,250.00	3,020.00	3,466.25

V	CVB-Plus	CVB-Premium	Flex ohne Veruntreuung	Flex mit Veruntreuung
75,000	3,381.44	3,250.00	3,107.00	3,553.25
76,000	3,381.44	3,250.00	3,136.00	k. A.
90,000	3,381.44	3,250.00	3,542.00	k. A.

Wohnwagen (yearly price in €)

V	CVB-Plus	CVB-Premium	Flex ohne Veruntreuung	Flex mit Veruntreuung
6,000	1,196.66	1,330.00	973.00	1,092.00
15,000	1,196.66	1,330.00	973.00	1,092.00
16,000	1,196.66	1,330.00	973.00	1,151.50
20,000	1,196.66	1,330.00	973.00	1,151.50
21,000	1,196.66	1,330.00	1,006.00	1,184.50
25,000	1,196.66	1,330.00	1,138.00	1,316.50
26,000	1,196.66	1,330.00	1,171.00	Auf Anfrage
35,000	1,196.66	1,330.00	1,468.00	Auf Anfrage

Results Display and Plan Benefits

Show the plans as three cards side by side (stacked on mobile). Each card shows: plan name, yearly price (or „Preis auf Anfrage“), deductible, the benefit list below, and a button „Jetzt anfragen“. The cheapest priced plan gets a visible „Empfehlung“ badge.

Use these benefit points on the cards (German, short). They come from the client's plan descriptions — do not invent more.

CVB-Plus — Selbstbeteiligung 1.500 €

1. Kfz-Haftpflichtversicherung: 100 Mio. € pauschal, bei Personenschäden max. 15 Mio. € je geschädigte Person
2. Vollkasko inkl. Teilkasko
3. GAP-Deckung für geleaste und kreditfinanzierte Fahrzeuge (beitragsfrei enthalten)
4. Unterschlagung mitversichert (bei Identitätsprüfung und bargeldloser Zahlung bei Fahrzeugübergabe)
5. Zubehör mitversichert: Vorzelte, Markisen, Fahrradträger, Gasanlagen, Klimaanlagen, Satellitenschüsseln (im Rahmen der angegebenen Gesamtwerte)

CVB-Premium — Selbstbeteiligung 1.500 €

1. Kfz-Haftpflichtversicherung für Wohnmobile/Wohnwagen bis 150.000 € brutto: 100 Mio. € pauschal, bei Personenschäden max. 15 Mio. € je geschädigte Person

2. Vollkasko inkl. Teilkasko
3. Unterschlagung mitversichert (Selbstbeteiligung dafür: 20 % des Erstattungswertes, mindestens 5.000 €; Identitätsprüfung und bargeldlose Zahlung erforderlich, bevorzugt Banküberweisung)
4. Zubehör mitversichert: Vorzelte, Markisen, Fahrradträger, Gasanlagen, Klimaanlagen, Satellitenschüsseln (Sonderausstattung bis max. 10.000 €)

CVB-Flex — Selbstbeteiligung 1.000 €

1. Kfz-Haftpflichtversicherung: 100 Mio. € pauschal, max. 12 Mio. € je Person
2. Vollkasko und Teilkasko (für Fahrzeuge bis 20 Jahre)
3. Schutzbrief für Wohnmobile enthalten
4. Veruntreuungsschutz optional zubuchbar
5. Verzicht auf Abzug „neu für alt“ bei Fahrzeugen bis 10 Jahre
6. Höchstversicherungssumme 250.000 €

Under the cards, one line: „Alle Preise sind Jahresbeiträge inkl. Versicherungssteuer. Selbstbeteiligung je Schadenfall.“

Insurance Request Form

When the visitor clicks „Jetzt anfragen“ on a plan card (or on a „Preis auf Anfrage“ card), a request form opens — directly under the results or as a modal.

Pre-filled automatically from the calculator (visible, not editable): chosen plan, vehicle type, purchase price, Baujahr, Veruntreuung yes/no, and the calculated yearly price (if available).

Fields the visitor fills in:

Field	Required
Name	yes
Firma (company)	no
E-Mail	yes
Telefon	no
Nachricht (message, free text)	no
Datenschutz checkbox (consent to privacy policy, with link)	yes

On submit:

1. Send an email with ALL data (form fields + all calculator inputs + chosen plan + calculated price) to **Versicherungsanfrage@caravan-vermieter-bund.de**.
2. Send a short confirmation email to the visitor: thanks, your request was received, we will contact you.
3. Show a success message on the page.
4. Save the request in the database so it appears in the admin panel (Phase 3).
5. Spam protection: honeypot field plus a rate limit. No annoying captcha if avoidable.

Emails in German, clean plain layout, sender name „SelbstfahrerVermietversicherung.online“.

Phase 3: Admin Panel

A simple, password-protected admin area. The site owner is not technical — everything must be editable without touching code. German UI. Same admin concept as the CVB-Office project, so reuse that structure where possible.

1. Homepage content management

1. Edit all texts and images of the homepage sections (hero, intro, plan overview, trust section, contact).
2. Show/hide sections and change their order.

2. Price management (the yearly update use case)

Insurance prices change every year. The owner must be able to do the full yearly update alone, in minutes:

1. Edit CVB-Plus prices: the Wohnmobil values (both steps and the threshold, currently 3,082.99 / 3,381.44 at 72,000) and the Wohnwagen value (1,196.66).
2. Edit CVB-Premium prices: Wohnmobil (3,250) and Wohnwagen (1,330).
3. Edit all CVB-Flex parameters: Haftpflicht amounts, Kasko percentages, minimum values, Schutzbrief, Veruntreuung surcharges and their thresholds, the „k. A.“ / „Auf Anfrage“ limits, the liability-only prices for 21+ years.
4. Edit the valid value ranges (currently Wohnmobil 50,000–90,000, Wohnwagen 6,000–35,000) and the deductibles.

3. Plan benefits: edit the benefit lines shown on each plan card.

4. Requests inbox: list of all insurance requests with date, name, plan, vehicle data, status (Neu / In Bearbeitung / Erledigt), notes field, and CSV export.

5. Settings: recipient email address for requests, contact details shown on the site, admin password change.

Every price and rule the calculator uses must come from this stored configuration — nothing hard-coded — so a price change in the admin is live on the website immediately.

Technical Requirements

1. **Stack:** custom-coded, same stack as the CVB-Office project (no heavy CMS). Keep it simple and fast.
2. **Responsive:** flawless on smartphone, tablet, desktop. Test the calculator on small screens especially.
3. **Performance:** fast load; calculator reacts instantly without page reloads.
4. **Precision:** calculate prices with exact decimal handling. Display format German style: 3.082,99 €.
5. **SEO basics:** proper title/meta per page, one H1, clean heading order, alt texts, sitemap.

6. **GDPR:** consent checkbox on the form, link to Datenschutz page, requests stored securely, no tracking scripts without consent.
7. **Emails:** reliable delivery (configure SPF/DKIM on the sending domain where possible).
8. **Deployment:** goes live on the existing domain SelbstfahrerVermietversicherung.online. Hosting access will be provided. Keep the old site reachable until the switch moment.
9. **No AI-visible leftovers:** no placeholder texts, no English strings in the German UI, no console errors.

Acceptance Checklist

The project counts as done when every point below passes.

Design and website

- ☐ Site matches the CVB design (colors, fonts, logo, header/footer style)
- ☐ All homepage sections from Phase 1 are present with German content
- ☐ Impressum and Datenschutz pages linked in the footer
- ☐ Fully responsive on phone, tablet, desktop; no layout breaks
- ☐ Loads fast; no console errors; no placeholder or English leftover text

Calculator — inputs

- ☐ Vehicle type choice (Wohnmobil/Wohnwagen) switches the complete price set
- ☐ Price input is a plain field (no slider); invalid input handled gracefully
- ☐ Values between 1,000 € steps round UP to the next 1,000 €
- ☐ Baujahr input works; vehicle age calculated correctly
- ☐ Veruntreuung yes/no changes only the CVB-Flex price

Calculator — prices (checked against the Excel, row by row)

- ☐ Every Wohnmobil value 50,000–90,000 matches all 4 columns of the Excel
- ☐ Every Wohnwagen value 6,000–35,000 matches all 4 columns of the Excel
- ☐ The 8 + 8 verification checkpoints in this brief all pass
- ☐ Wohnmobil Flex mit Veruntreuung above 75,000 shows as not available
- ☐ Wohnwagen Flex mit Veruntreuung above 25,000 shows „Preis auf Anfrage“
- ☐ Vehicle age 21+ → Flex shows liability-only (1,016.40 / 375.60) with the correct label
- ☐ Values outside the table ranges show „Preis auf Anfrage“ with the request option
- ☐ The cheapest priced plan always carries the „Empfehlung“ badge (tested for Wohnmobil and Wohnwagen, with and without Veruntreuung)
- ☐ Prices display in German format with „Jahresbeitrag inkl. Versicherungssteuer“ note

Request form

- ☐ Form pre-fills plan and all calculator inputs
- ☐ Required fields and Datenschutz checkbox validated
- ☐ Request email arrives at Versicherungsanfrage@caravan-vermieter-bund.de with ALL data
- ☐ Visitor receives a German confirmation email
- ☐ Request appears in the admin inbox; spam protection active

Admin panel

- ☐ Login works; no admin page reachable without login
- ☐ Homepage texts, images, section order editable; changes live immediately
- ☐ Every price and rule parameter editable; a test change updates the calculator instantly (then revert it)
- ☐ Plan benefit lines editable
- ☐ Requests list with status, notes, CSV export works
- ☐ Recipient email changeable in settings

Launch

- ☐ Live on SelbstfahrerVermietversicherung.online with SSL
- ☐ Site and calculator fully live before 01.12.2026; admin panel complete by 06.12.2026
- ☐ Final full test pass done on the live domain
